Integrity Collection Releases Stainless Steel Vegetable Peeler Product Line To The Market

August 05, 2015

August 05, 2015 -
Integrity Collection LLC, a company that specializes in kitchen utensils, has just released their line of stainless steel Vegetable Peelers to the market. Those who are interested in buying the product will be able to find it on the company's Amazon storefront at the following URL: http://www.amazon.com/Integrity-Collection-Vegetable-Stainless-Julienne/dp/B00YOA8PKO/ref=sr_1_155?s=home-garden&ie=UTF8&qid=1438212744&sr=1-155&keywords=vegetable+peeler.

Integrity Collection stated that customers will appreciate the functionality of their vegetable peeler, which they say is due to the product's ultra-sharp dual blades." Customers will be able to peel anything from apples, pears, carrots to potatoes, cucumbers, squash, and zucchini. The best part is that they will be able to do it easily and efficiently," added the company.

Other benefits that customers can expect from the stainless steel vegetable peeler are that it is easy to store, dishwasher safe, rust resistant, which is due to its high quality stainless steel blades, and has an ergonomic handle that is both sturdy and easy to use. The company said that the product also features a pivoting head, which allows customers to cut at different angles.

Currently, there are 3 customer reviews, all positive and all providing the product with a five-star rating. One customer wrote the following review: "This is an amazing peeler. This particular peeler eliminated two gadgets in my kitchen drawer because it combines a peeler with a julienne slicer. One is on each side. This peeler is made of a nice heavy steel that will not bend but is still light weight enough that your wrist doesn't get tired after a bag of potatoes. The included brush helps keep the peeler clean. So keep in mind, for this price you are getting two gadgets in one! Absolutely love it!"

For those who would like more information on the vegetable peeler from Integrity Collection LLC, they are encouraged to visit the company's Amazon storefront. Here, they will be able to get the full details on the Vegetable Peeler. Interested parties will also be able to read all of the reviews from customers that have already bought the product. Integrity collection also encourages all customers to continue leaving feedback

after they have bought the vessel peeler, as this will help them to continue providing the best customer service and high quality products so that their customers are always happy.
