

Isla Mujeres Vacations Announces New Travel Packages

September 06, 2016

September 06, 2016 -
Isla Mujeres Vacations, which provides vacation packages and travel information for those planning a trip to Isla Mujeres, Mexico, has recently announced that they have new travel packages available. The company points out that the packages contain a number of exciting things to see and do.

Susan Marchon with the company says, "Isla Mujeres is a wonderful place to visit if you are planning a trip to Mexico. There's so many fun things to do in this little area of the Caribbean."

Marchon says that activities like snorkeling, scuba diving, and whale or shark seeing are just part of the fun that awaits visitors. She says that those interested can connect with others who have been to the area and get general information from the company's Facebook page at https://www.facebook.com/islamujeresvacationsforall.

Some of the new packages the company offers include golf cart rentals as well as activities such as deep sea and bay fishing and visits to the nearby uninhabited Isla Contoy. Trips to Cuba, snorkeling and seal life discovery or dolphin swim adventures can also be arranged.

"We have so many things that you will want to see and do," says Marchon. "View the Mayan temple ruins or learn all about pirates that swarmed the area hundreds of years ago. When you book one of our rentals, you'll be perfectly located for all of these exciting adventures."

Marchon states that their Isla Mujeres house rentals are located in a place of history and mystery, and that past visitors have marveled at the area and all that it has to offer. More about the region can be seen at http://islamujeresvacations.com/.

The rental homes feature classic Spanish architecture and are located on the beach. Houses and condos are offered as well as boutique hotel rooms. Marchon says that most travelers with practically any budget can find the perfect rental and enjoy some of the beauty of the Caribbean area.

Those planning a vacation to Mexico who would like to see more about the Isla Mujures or about the rooms, rates, and vacation packages offered by Isla Mujeres Vacations can visit them and book online at http://islamujeresvacations.com/vacation-rentals/.
