Hail can do heavy damage to a house. Hard impacts by these icy projectiles can pulverize roofing shingles, break skylight glass and dent aluminum gutters. But the damage can easily exceed these impact effects because hail is often accompanied by high winds and heavy rain. These additional issues can cause tree limbs to break loose and punch through a roof. Add heavy rain and there can be major moisture damage inside the house.

Homestead offers expert services to repair hail & storm damage, including, structural roof repair & reconstruction, window replacement, roofing spot repairs, and gutter and downspout replacement. Homestead provides their storm damage recovery in Saint Paul, Rochester, Burnsville, Eden Prairie, Osseo, Minneapolis, Hopkins, Lakeville, Still Water, Cottage Grove, Inver Grove Heights, Faribault and many nearby areas in Greater Minneapolis.

"We know what it takes to expedite insurance claims so that you can confidently proceed with all necessary repair and storm recovery work. Let us help you get your house and your life back to normal when severe weather has damaged your property," says owner Ken Burkhardt.
