3 Bees and Me happily announced earlier that their car sunshades for baby has been receiving an overwhelming amount of good reviews from users. The company is very grateful with the support that their product has been receiving ever since it was released and made available at the Amazon online shelves.

"We are very ecstatic that our shade for cars with a cool dog design has continuously been receiving very good feedback. The reviews are very important for us because first and foremost, customer satisfaction is our top priority," says 3 Bees and Me representative, Holly James. She further stated, "We also use the feedback of our buyers to make sure that we are on the right track when it comes to improving not only our product, but our customer service as well. Rest assured that we will always value what you have to say."

Here are some reviews that the sunshade has received so far:

Great for any mom to help keep those babes protected! These are the cutest little sunshades I've seen yet! The little dog will keep the little ones entertained while they "talk" to it (so cute!)! Made from a durable and high quality material, seems like they'll last quite a long time. Pack comes with two sun shades and six

suction cups. Having a second one comes in handy when either you have a 2nd child on the other side of the car or even in a 2nd vehicle! Purchase price is great and worth the purchase! ?JM1982

These sun shades are perfect for our family! My kids love the doggy picture on it. They stick easily and stay on very well, even in high temperature heats (we live in Las Vegas) so it gets really really hot here! The only bad thing about these, if you ever want to roll the windows down, you do have to take these off. They block the sun out of the kids eyes without blocking their view. I am extremely happy with my purchase & if this is something you are looking for, I would recommend this. ?Marlee Wiffee

My kids and I love these sun shades. They work super well and are very easy to install. They are also super cute! My 1 year old loves them! ?AMZJunkie

This sunshade boasts a unique dog design that will surely be appreciated by kids. It was made to fit perfectly in most cars and SUVs. As for the shade, it is darker than other brands, but still gives good visibility to allow passengers to see through it. It is very lightweight and can easily be folded when not in use. Each set comes with two free suction cups.

For various brands, each customer?s feedback is very important. With the influx of good reviews for 3 Bees and Me, it is no wonder why the people behind the company are very happy. The shades are still available at Amazon.com.
