

Pro Pad Releases Slim Tour Pack Quick Detach Rack For 2009+ Harleys

June 30, 2016

June 30, 2016 -

Mooresville, NC business Pro Pad Inc. has announced that they have launched a new product, the Slim Tour Pack Quick Detach Rack, which is suitable for 2009+ Harley-Davidson motorbikes. The rack is available through http://www.thepropad.com/slim-tour-pack-quick-detach-rack-for-2009-harleys/.

Mike Enzwiler from Pro Pad Inc. says: "We are so happy to have been able to expand our line of Raxx detachable tour pack racks. The new Slim Tour Pack Rack is easy to mount and easy to detach and makes those road trips on a Harley a little bit easier and even more enjoyable."

The Raxx range of detachable tour pack racks has been designed to enable people to add a tour pack to their bike, or to change their permanent mount to a detachable system. It works with both the OE (Harley) and aftermarket tour packs as well. All packs, including the new model, are very easy to bolt on through the pre drilled holes. They fit flush against the bottom of the tour pack, providing more support.

The new tour pack rack also has a lower profile and moves a tour pack 1.5" rearward further than stock. This ensures that a lower center of gravity is maintained at all times. In so doing, the look of the overall pack is improved and passengers will have more room. The packs quickly attach and detach to the OE style rear four point docking hardware.

The new Slim Tour Pack Rack is suitable for all Harley Davidson 2009 and up. They are made from heavy gauge stainless steel. Customers can choose between a polished or flat black powder coat to customize it to best suit their own model.

All Pro Pad Inc. products are 100% Made in the USA and come with a full five year warranty for manufacturers' defects. "Our new Slim Tour Pack Rack comes in polished stainless steel with a mirror finish or flat black," adds Mike Enzwiler. "It has quick release latches and fits 2009 to present Harley FLs."

Pro Pad is a family-owned manufacturer of parts and accessories for motorcycles, such as flag mounts, gel seat inserts, and seat pads. Those who are interested in the new tour pack are encouraged to visit the company website.
