

Best Vegetable Peeler On Sale On National Pick Strawberries Day

May 19, 2015

Cestari Kitchen has announced that their Pro Peeler can be purchased on May 20 at a discounted price. This peeler with razor sharp ceramic blade has been provided with an angled tip that is perfect for hollowing out freshly picked strawberries so that one can put in sour cream and brown sugar, sweetened cream cheese, or pastry cream. May 20 being National Pick Strawberries Day, the company thought it appropriate to offer a \$5 coupon to be used on either the black or red vegetable peeler.

In order to obtain this discount and purchase the [Cestari Kitchen vegetable peeler](#), consumers will need to use the discount code MAY20PP5 when shopping on the Amazon retail page at http://www.amazon.com/best_vegetable_peeler Along with the \$5.00 discount for National Pick Strawberries Day, the peeler can also be combined with the coupon code BOOKR11L00 for a free copy of the eBook, "How To Select Fresh Vegetables." However, the \$5.00 discount will only be valid on May 20.

The Pro Peeler is built with an ergonomic design for easier use in the kitchen. It comes with an easy care warranty that offers consumers the ability to return their product due to damage or dissatisfaction with no questions asked. Due to the high quality, seamless manufacturing, it is dishwasher safe, and it is meant to last without need for replacement. Cestari Kitchen representatives have said the following regarding the design and usage of the peeler:

"Precisely calibrated to remove a thin strip of peel without mangling the fruit or vegetable. The thickness of the peel can be adjusted by the amount of pressure applied. As a carrot peeler, it scrapes off a thin strip of peel, while as a butternut squash peeler, it handily deals with the thicker skin."

The Cestari Kitchen vegetable peeler uses a razor sharp ceramic blade that stays sharper for longer than the average steel blade. It has no porous materials, which means that the tool absorbs no odors, and holds no tastes from foods that are peeled once the blade has been washed. The company supports this feature as one of the main benefits of the tool.

The company encourages new and current consumers to visit their website for a look at other tools and products which are currently being sold by Cestari Kitchen, and for updates on special promotions and sales.
