

Temecula Attorney Website Continues To Grow

August 16, 2016

August 16, 2016 -
Four months ago, the Law Offices of Kevin Cortright, a law firm headquartered in Murrieta, CA, launched a new website. The firm has now reported that since doing so, website traffic has continued to grow. The website includes key features for those looking for information for personal injury, workers' compensation, and bankruptcy law.

Kevin Cortright himself says: "Implementing our new website was perhaps the best thing we ever did. We really need to thank the design team and the internet marketing team for all their hard work, and it is really paying off. Our goal is to ensure that more people are able to get the legal assistance that they need, and we are achieving this with our website."

Kevin Cortright is known as the attorney who wins cases. Hailed for his dedication to each of his clients individually, he has received numerous awards and recognitions. He also makes concentrated efforts to make it easier for people to find him, including not just updating his website regularly, but also by posting a number of web pages in Spanish. These are just some of the things that set his law firm apart from the rest of the crowd.

The work that the Temecula attorney does has also been greatly appreciated by his many clients. "Kevin is

just the right balance of personal and professional," says Colton on Avvo. "I came to him in a time of serious legal need and he showed great poise and competence in how to handle my situation. I found I was able to be more than confident in his ability. But what I also appreciated was that he is not just a cold professional, but shows a genuine care for people and seeks to understand their situation. I felt not only that I was in good hands, but good company as well. I would hire Kevin again in the future."

Kevin and his team are encouraging everyone to visit the website to review the various services that they offer, and the areas of law that they specialize in. He offers chat functionality on his site, but also encourages people to contact him for a consultation.
