

Hydrofeet® Finally Combines Memory Foam And Glycerin

August 18, 2016

August 18, 2016 - PRESSADVANTAGE -

The Hydrofeet® company finally combined liquid glycerin and memory foam in coming up with its newest product specifically for high heels, Hydrofeet Gold. Hydrofeet Gold is said to have the combined benefits of wearing massaging insoles and memory foam arch support.

Hydrofeet® shoe insoles for women and men have been gaining popularity among Amazon customers. It has more than 600 customer reviews to date, and has 4 out of 5 stars from customers' feedback. This massaging insole is mainly made of vegetable-based liquid glycerin enclosed in thermoplastic polyurethane (TPU), massaging the feet as the user walks or runs.

Most customers love the original Hydrofeet® for women and men. Nevertheless, some expressed that they would love to have it with more arch support, and probably with memory foam. One verified Amazon customer said in her review, "The first 2 days the massage was intense, I placed memory foam under them and it felt great! upon removing your foot from the shoe, is when you notice these shoe inserts work!?"

To respond to these particular customer feedback, Hydrofeet® recently came up with Hydrofeet Gold. This

new variant of Hydrofeet® is especially made for high-heeled footwear, so it does not have a toe area, and has memory foam for better arch support while on heels. The rest of this insole for high heels is still made of dynamic liquid glycerin and TPU, with several layers of cloth for improved comfort.

The memory foam arch support helps reduce the strain on the plantar fascia, thereby improving the gait of the person wearing high heels, putting the center of gravity at the right place. In addition, this memory foam makes walking on high heels more comfortable and bearable. Based on the reports of verified Amazon customers that have tried Hydrofeet Gold, their feet do not feel sore and tired at the end of the day when they use the insoles with their favorite high-heeled shoes.

Midwest Health Solutions is an authorized seller of Hydrofeet Gold and Hydrofeet® shoe insoles for women, men, and children, which can be purchased on Amazon.
