

Bakersfield Solar Company Launches New Website With Referral System

January 09, 2017

January 09, 2017 - PRESSADVANTAGE -

BSW Roofing and Solar, a solar energy company in Bakersfield, CA, is proud to announce that they have recently launched their new website. The website, which was designed and created by local marketing firm MobcastMedia.com, now includes new referral incentives for residents of Bakersfield. The solar energy company pointed out that with their new site they want to send out the message that when it comes to solar Bakersfield residents can rely on BSW.

Ernie Montoya from BSW Roofing and Solar says: "We cannot thank the team at MobcastMedia enough. They have created a website that exceeded even our own expectations, and we just know our customers will love it. We're particularly happy with the referral system that we have included, which ensures more people can enjoy sustainable, green energy."

The solar installer has been operating in Bakersfield for many years, where they have quickly established themselves as a dependable provider of solar energy equipment for homeowners and businesses. They offer solutions for both residential roofing and commercial roofing, targeting all of the Bakersfield community.

The work they have done has received a lot of positive attention. One family says on the company's website: "I was looking for a roofing company to repair my father-in-law's roof. I proceeded to get 3 estimates & decided to go with BSW Roofing. Guillermo Murillo from BSW Roofing was our Project Manager. He assisted my father-in-law & I through the whole process. Guillermo was very professional & was always available when we had any questions. BSW Roofing did an excellent job on our roof & his crew always cleaned up at the end of the day. We also decided to install solar panels along with the roof repairs. Very satisfied with the final result & I would definitely recommend BSW Roofing to anyone looking to repair their roof or interested in going solar,ask for Guillermo. Thanks again BSW Roofing."

The Bakersfield solar company is known for its variety of solar projects, but the company also offers other roofing solutions, including roofing repairs. They encourage everyone to contact them with questions about roofing solutions, solar or not. Additionally, with their new referral system and incentives, they want to point out that more people will be able to finally have an energy efficient roof.
