

Swim Goggles Launched On Amazon

February 06, 2017

February 06, 2017 - PRESSADVANTAGE -

Pasadena, California based company SF Group has recently launched a new product onto the Amazon marketplace. The company's Kiddie Swim Goggles are currently available through the marketplace.

Vincent Nell with SF Group says, "Swimming is fun but it can hurt the eyes if you're not giving the right protection. Our swim goggles are recommended to protect your eyes from water exposure as well as ultraviolet light."

The product, which can be seen at <http://amzn.to/2kfR0rS>, is made of polycarbonate lenses which make it shatterproof according to Vincent Nell. He states that the swim goggles are equipped with crystal clear wide lenses which provide clear vision while you dive underwater.

"Kid swimmers are going to find that these swim goggles are very comfortable to use," says Vincent Nell. "You can use it for swimming, diving, and snorkeling. The inner surface of the lenses provides anti-fog treatment while the outer frame is leak-proof and durable. If you want to use the swim goggles for toddlers and early teenagers, you will need a good eye protection which has a wide range of adjustment for the strap."

Vincent Nell states that the swim goggles can be used for boys and girls through its unisex design.

SF Group designed the Kiddie Swim Goggles to give maximum comfort when doing water sports activities. The company states that their new product works perfectly in any tough conditions. More can be seen on the company's Amazon seller's page.
