

Dixie Door Celebrates Nearly Six Decades In The Industry

February 09, 2017

February 09, 2017 -

Dixie Door offers installation, service and repair of garage doors. The work is done quickly, correctly and professionally.

Hendersonville TN: Dixie Door Inc and Ken Knippel are pleased to announce that he has been involved in the garage door Nashville TN industry for 57 years. The company was established in 1987 and serves the area of Nashville and Middle Tennessee with premier quality service. The company serves residential and commercial customers, offering repairs, installations and quality parts at affordable prices. The top garage doors are not only aesthetically appealing, but add to the safety and security of the structure.

Residential services and products by Dixie Door include installations, service and repairs of garage doors for clients. Commercial clients can also be assured of top-quality installation, service and repair of commercial garage doors. Repair services which are necessary to bring a door to optimal functioning. The professionals at the company are ready to help. For do-it-yourself home and business owners, parts for garage door repair are available.

Ken Knippel explained to an interviewer recently, "At Dixie Door, Inc., we concentrate on one thing: garage doors. We install, repair, and service residential and commercial garage doors, and after nearly 60 years in the industry, our customers understand why. We offer the statements from clients about our portfolio of projects and products as proof of the quality we provide with every job. We invite you to learn about the philosophy, ethics and availability of the firm."

Dixie Door is pleased to be a certified Clopay Garage Door dealer. The company carries the entire line of Clopay residential garage door openers. The products available to customers include wood and steel. The style can be contemporary or classic. For customers who need a garage door opener, the complete line of LiftMaster products is available. Installation professionals are able to find a spot for an opener in the smallest of spaces.
