Dentist In Anchorage Publishes Guiding Philosophy

August 16, 2017

Healthy Smiles Dental, a clinic based in Anchorage, AK, aims to set itself apart as the best dentist Anchorage has to offer. One way in which they plan to achieve that is through a clear guiding philosophy and commitment to excellence that all their staff have signed up to. They are proud to announce that they have now released their philosophy publicly, so that all patients know what to expect.

Dr. Terry J. Preece from Healthy Smiles Dental says: "We have always done all we can to offer our patients an excellent service. We focus on convenience and comfort, and we want to make sure our service is affordable. To guarantee these, we have publicly released our philosophy, which every member of the team stands behind, thereby making sure that patients are aware of the things that they can expect."

The Anchorage dentist's philosophy includes a commitment to excellence, acceptance, respect, honesty, and ethical standards. In terms of excellence, the clinic is committed to making sure they only offer the best and most advanced forms of treatment. Acceptance is about celebrating patient and staff diversity. They believe in building lasting relationships with each of their patients, which can only be done when respect and honesty are provided. Lastly, ethical standards ensure that everyone in the team knows the difference between right and wrong.

This clear philosophy has set the clinic apart as one of the best in the area, something that is seen in the many positive reviews they have received from their patients. Mihaela C., for instance, says on the clinic website: "Very professional. I am extremely impressed and satisfied. They even took my blood pressure before the dental work, they were very patient and kind and they answered all my (100) questions about my teeth. I am in fact leaving my old dentist and will only work on my teeth at this place. On a scale 1-10 I give a 12. Very happy with the dental work too."

It should come as no surprise, therefore, that Healthy Smiles Dental is widely regarded as the best dentist Anchorage AK residents can go to.
