

Chimney Sweep In Pensacola Announces Fall Services

September 05, 2017

September 05, 2017 -
Doodlebuggers in Pensacola, Florida, has announced the availability of their chimney cleaning services for the fall season. They urge residents to have their chimneys inspected before the colder weather arrives. They point out that it is the right time to have chimneys cleaned if needed and the company is providing inspections for area residents and businesses.

"Late summer is the ideal time to make sure that your chimney is in good operating condition," says a spokesperson for the chimney sweep Pensacola company. "You don't want to light a fire in the fireplace in the dead of winter and be smoked out of your house. It's much better to handle these things before the cooler weather, so that you know that you are safe from fires and other damages that clogged chimneys or air ducts can cause."

The company states that they are providing certified services for chimney and air duct cleaning Pensacola residences and commercial facilities can use. They point out that clogged chimneys contribute to a number of house fires every year. They are also the main cause of smoke damage throughout homes.

"You have to know that your chimneys are free from debris," says the company representative. "On another note, you also want to be sure that there is nothing stopping up your air ducts and making it difficult or

impossible for warm air to blow through. Let's face it, Florida is not that cold in winter but there is often a chill in the air. You want to know that your heating is working properly. And now, before those colder temperatures arrive, is the time to get your inspection done so that you have time to take care of any cleaning or repairs that may be needed."

The company states that home and business owners can contact them to schedule an inspection, where certified staff will thoroughly check all ducts and chimneys to determine if they are in good operating condition or in need of cleaning or repair. Doodlebuggers offers cleaning and repair services for chimneys, air ducts and various other household items. Those interested can learn more by visiting the company online at https://hugyourhome.com/.
