

Olathe Company Announces New Roofing Website

September 06, 2017

September 06, 2017 - PRESSADVANTAGE -

Armor Roofing LLC has announced a new website on roofing services for those living in and around Olathe, Kansas. The company recently stated that their website is now live and provides home and business owners with resources regarding their roofs, including helpful tips and articles.

Shawn Obermann, a spokesperson for the company, says: "This website is designed to make your life a bit easier. We wanted to offer a place where you can find out more about your roofing needs and, of course, to let you know about our experience and why we are the best choice for the job."

As indicated on the website, Armor Roofing has more than 27 years of roofing experience within the Kansas City area and it has been rated as the number one roofer in that particular area by YP.com. Obermann states that they have only trained and certified roofing professionals to ensure that homes and businesses are fully protected.

"We offer certified quality done by HAAG Certified Roofing Inspectors," says Obermann. "Our only goal is to repair or replace your roof to your complete satisfaction."

Armor Roofing provides services in and around the Kansas City area, including to customers in Olathe. They

offer repairs and replacements for roofs, and provide gutter work as well as siding and general home improvement services. The company has been in operation for more than two decades, building relationships with communities in and around Kansas City including Neosho, Kansas and Springfield, Missouri locations.

Obermann says that the new website will help customers to find more information about how to hire a roofing contractor as well as what to look for with regards to leaks and other problems that could indicate an issue with the roof. He states that these helpful articles are designed to assist consumers in knowing whether or not they need a roofer and if and when they do, to help them to better find a contractor to meet their specific needs. He states that location information as well as credentials are all included on the website, in addition to contact information.

Home and business owners in and around the Kansas City area can learn more by visiting the company on their official website.
