

Carpet Stores Near Me Launches Carpet Cleaning Service

September 18, 2017

September 18, 2017 - PRESSADVANTAGE -

Versatile Carpet Cleaning Services has announced a new carpet cleaning service for customers in and around Minneapolis, Minnesota. The company states that information about the new cleaning service can now be seen on their official website.

Jeff Mork, a representative for the company says, "Carpet cleaning is one of those services that you just never know how good it is until you use it. You don't know if the company is good, you don't know if they are going to remove all of your stains and leave your carpets looking new until you have enlisted their services or know someone else who has."

Mork says that the company website is dedicated to answering questions from customers and helping them to trust the service that they will be receiving. He states that many customers have told him over the years that they have tried other carpet cleaning companies, only to be sorely disappointed with the results.

"We want to help people to find and hire a reliable carpet cleaner," says Mork. "You can learn more by looking up YouTube - Carpet Cleaning where you will see a number of ways to ensure that the service you hire is going to do a good job."

Mork says that their website also offers information on what home and business owners should look for when they are hiring carpet cleaners. He states that just because a company has been around the community for years does not necessarily make it a good choice. Alternatively, Mork says that just because a company is new to offering carpet cleaning, doesn't mean that it will do a bad job. He states that it takes consideration when choosing a carpet cleaner and urges those in the Minneapolis area who have questions to visit the company online or contact them to learn more.

Mork says that the company provides quality carpet cleaning for home and business owners throughout the area and states that his company has a reputation for the best in customer service as well as quality and professional cleaning. Mork also urges those who are interested in learning more to "find us on Google

maps."
