Roy Wingate Launches Best Car Wreck Lawyer Waco Website

October 03, 2017

October 03, 2017 -
Roy Wingate Business Consultants, based in Odessa, TX, has announced the launch of a new website that is designed for finding the best car accident attorney in Waco, TX. The new website, https://bestcarwrecklawyerwaco.com/, is now live and this can be used by lawyers who specialize in car wreck issues in Waco.

Roy Wingate himself says: "We really enjoyed working on this Best Car Wreck Lawyer Waco website. The site provides important information for people who have been involved in a car accident, be that as a victim or a perpetrator, and where they can go to get the help that they need. The website is part of our street credibility package, which means car accident attorneys can make use of such a website."

The system used by Roy Wingate Business Consultants, as shown on https://roywingatebusinessconsultants.com/, is quite unique. They build websites and make sure they rank on the first page of Google through targeted links, press releases, videos, and various other online marketing tools. Once the website is ranked, it is available for rental by businesses to which it is applicable.

"We create websites, videos, and press releases, first rank them on page 1 of Google searches, then rent them to professionals seeking new clients, trust, social proof, and credibility," explains Roy Wingate. "These digital assets are road signs pointing to your original website, address, phone number and linking to your original website. It can be handed over to you in less than 24 hours-just like that."

The new website is already ranking very highly, demonstrating the skills that Roy Wingate and his team have at delivering this unique model. To date, they have developed websites for a variety of different industries and each are working according to plan. Besides the car wreck attorney, which has 30% first page results with a competition of 853,000 other pages, they have also completed work on a range of other industries, such as a website for swimming pools, which has 50% first page results with a competition of 207,000 pages. This truly demonstrates the effectiveness of the work that they do, and why they are so popular in their industry.
