

Cosmetic Surgery Clinic In Miami Delivers Five Star Results

October 06, 2017

[The Plastic Surgeon Miami](#), based in Miramar, FL, is proud to announce that they are now officially recognized for delivering five star results. With reports in various news outlets over the past few weeks of botched procedures performed by unregistered physicians, this recognition sets the clinic apart as one of the best ones in the Miami area. People are encouraged to contact the clinic to schedule an appointment.

Dr. Ramiro Morales from the Plastic Surgeon Miami says: "Miami is a global center for plastic surgery, ranking right at the top together with Bangkok, Thailand. However, this sometimes gives people a false sense of security, believing that every clinic must be a good one. We are five star rated and recognized as one of the best in town, and we pride ourselves on that."

The clinic offers a number of different types of procedures. However, their specializations lie in abdominoplasty, also known as the 'tummy tuck', breast augmentation, and blepharoplasty, also known as 'eyelid surgery'. Prospective patients can set a schedule for a free, no obligation consultation to find out what procedures would be relevant to them, and what to expect from the work itself.

One of the reasons why the clinic is so highly rated is because it has served thousands of patients, who have all been very happy with the results they have experienced. Glynis V., for instance, says on Yelp: "Wouldn't trade him for any other PS ever. He is the greatest. Travel from NYC to have my procedures with him. Professionalism and expertise is what you'll get from him. Wonderful staff altogether. Great bed manners. He is all you should look for when handing over your body for such serious surgeries."

[Ramiro Morales MD](#) adds: "Glynis' experience is one that we see often. People come into Miami because they expect to receive the best service. We want to make sure that this is indeed what people get. You only have one body, and we want to make sure that it truly looks as good as it possibly can do. We encourage everyone to come speak to us."
