

# Leesburg Roof Repair Company Receives Glowing Review

March 13, 2018

Roofer 911, a roofing company in McLean, VA, is proud to announce that they have received a new five star review from a happy customer. As a way of saying thank you for the customer's kind words, they have created a showcase video that highlights the testimonial. The review video was published on March 5, 2018 and it can be viewed at <https://www.youtube.com/watch?v=7tWonm6WWvI>.

In the review, the homeowner expresses just how extremely happy he was with the Leesburg roof repair service that was provided for his home and wanted to share his experience. Somesh Dixit says: "Thanks Roofer 911 for fixing the leak quickly. Roofer 911 were very quick in coming to my town home and locating the issue with the special camera and sending their personnel within couple of hours of signing the contract electronically. I will highly recommend them to my friends to fix any issue with roof and siding."

The camera that the customer is referring to is a highly sensitive infrared camera, one of the most modern pieces of technology available for the roofing industry at present. This camera helps to detect moisture trapped within walls caused by ice dams or overflowing gutters, for instance. If these issues aren't corrected, then mold will likely develop and there will also be risks of further structural damage.

As shown on the company's website at <http://www.roofer911.com/roof-repair/loudoun-county-va/leesburg.htm>, the company services all of Loudoun County. They generally offer same day service, although the fact that Virginia is currently in an official state of emergency due to the high winds, does have an impact on their ability to respond within 24 hours. Nevertheless, as always, the company ensures that they are there for their customers every step of the way.

The company also has a very active Facebook community at <https://www.facebook.com/Roofer911.roofrepair>. Here, they share important news and information, such as updates relating to the current state of emergency in Virginia. They also share advice and information about roofing projects and encourage people to join in on conversations, ask questions, and share their own experience. People have done so quite regularly, leaving reviews about their experiences with Roofer 911.
