

Roofing Repair In Leesburg VA Receives Five Star Testimonial

April 12, 2018

Roofer 911, based in McLean, VA, is proud to announce that they have received a new five star testimonial from a happy customer in Leesburg, VA. They have turned this review into a showcase video, which went live on April 6, 2018. The video can be viewed at <https://www.youtube.com/watch?v=lcup9jOH5LE>.

In the review, the customer stated just how happy she was with the roofing repair service that was provided for her home in Leesburg, VA, and she and her family would want to share their great experience to others. Cheryl Weaver says: "They were professional, fast and did a wonderful job. I was desperate to get someone out right away due to a leak and they came the very next day while other companies told me two weeks. I highly recommend them."

As shown on the company website at <http://www.roofer911.com/roof-repair/loudoun-county-va/leesburg.htm>, Roofer 911 strives to offer superior workmanship with guaranteed satisfaction. The area, just outside of Washington DC, has some 45,000 homes, each of which may at some time be in need of repair. With 91 rainy days per year, with an average of 41.9" of water, and also an average of 21.9" of snow during the winter, roof problems are quite common. The high summer humidity and heat, and the frequent thunder storms also make matters worse. Thankfully, Roofer 911 is there to resolve any issues, also offering emergency services.

The service that they offer has been highly appreciated by many customers. Indeed, a quick look at the business' Yelp page at <https://www.yelp.com/biz/roofer-911-mclean> shows just how many people have come to trust in and rely on their service. One of the things that people are particularly appreciative of is the educational service that the company offers. They have listed a number of key factors that people should be aware of that could be indicative of a roof problem. These include hearing rodents, smelling mold, having high energy bills, water in the basement after a storm, bubbles in the drywall, icicles across the roof, and puddles in the fireplace. Any of those signs could indicate that there is a need to call out the repair service.
