Amazing.com features an Amazon product showcase, reviewing real Amazon products and sharing opportunities for packaging improvement. Jason Katzenback and Rich Henderson share how existing sellers could improve customer retention and increase sales by bettering their [Amazon product packaging and inserts](#). They reveal that by spending time creating a customer experience through intentional packaging designs, sellers can beat big brands [selling on Amazon](#) and create repeat customers. This product showcase comes as Forbes reveals Amazon's own customer retention.

[Forbes reveals](#) that Amazon is addictive to customers, sharing that 85% of Prime shoppers visit Amazon once a week and 56% of non-Prime members report the same. Customers shopping on Amazon come to the site ready to buy. The Amazon Prime membership has contributed to the company's growth and customer retention strategy. Forbes also reveals that product reviews are integral in the customer buying process. 60% of customers said they would not consider an item with less than a 4.5-star rating.

During their product showcase, Jason Katzenback and Rich Henderson share their insight on packaging tips—like using packaging design to increase perceived value, using inserts to build a customer list, and including ways for customers to reach a seller directly via packaging or inserts. Providing a website, social media handle, or other contact information within the product package gives a customer direct access to a seller. This eliminates the hassle for a customer of having to go through the Amazon customer service channels to reach the seller. For a seller, having direct access to help alleviate a customer's concerns or correct an issue may allow them to avoid negative reviews and create a better customer experience by solving their problem faster. Jason and Rich share that intentional packaging designs and inserts create customer loyalty and assists brands when they launch new products on Amazon.
