Definitely recommend Villa Montessori Polaris!"

Director, Tamy Crutchfield explains, "We believe in challenging children and cultivating their unique interests. When this occurs, you will be amazed by how much they learn and grow. Our students are inspired by the innovative, unexpected and intriguing opportunities we provide through our classrooms, learning materials and creative guidance. We view our job as to make your child's initial learning experiences a lot more memorable and a little less ordinary."

The classrooms are designed to inspire curiosity in the child and build their self-confidence. They enjoy hands-on learning experiences which form the foundation for lifelong learning. The environment features comfortable physical spaces to grow, collaborate and learn. Each student is empowered to play and to make strides in learning at their own pace and guided by their own interests.
