

Old World Brick Paving Announces National Permeable Brick Cleaning And Repair Services

October 18, 2018

Old World Brick Paving, a top brick installation contractor, has announced that they now have national [permeable brick cleaning and repair services](#). The company has been providing brick installation services coupled with superior workmanship with their main aim being customer satisfaction.

During the announcement, the company stated that, “Many people are in need of professional Permeable brick paving services like maintenance, repair and cleaning. At Old World Brick Paving we have years of experience handling Permeable brick pavers for patios walks, driveways, and pool decks. We have specialized in permeable paver maintenance, permeable paver repair and permeable paver cleaning. Our focus is on beautifying landscaping and giving our clients a long lasting solution that does not require frequent maintenance. We are now providing our permeable brick paving cleaning and maintenance services nationally. This will make sure that consumers can access these services from wherever they are in the country.”

The company has been enjoying [positive reviews](#) from the people who have worked with their professionals in different filed of brick paving. A customer who worked with Old World Brick Paving said, “Greg and Old World Brick Paving did a clean and seal on a large patio of ours. The patio is at least ten years old and needed some repair work. I can’t say enough good things about the job Old World did. They were professional, punctual, did exceptional work and answered all of our questions and concerns. I would highly recommend Old World Brick Paving.”

The company stated that there is a great need for maintenance and cleaning services. This is because there are many companies that install the bricks and do not help the customer keep the area clean. For this reason, they provide professionals who are trained in proper cleaning and repairing of any damaged areas.
