"First thing would like to say is top notch!" said Peter H. "They showed up on time and worked diligently until the job was complete. My home looks amazing and I can rest assured that I won't see any leaks anytime soon. They cleaned up well and the roof came with an excellent warranty. All communications were excellent."

Ken Briesemeister responded, "We feel great about a job well done. We feel even better knowing a customer took the time to write about their experience online and leave us a 5-star review. It's simply a win-win for us and each review like this is like receiving an award for achievement. You don't have to take Peter's word for it, you can find out for yourself."

"Our comprehensive roofing system contains some major components that are designed to extend the life of your roof as long as possible: water and ice shield, roof and deck protection, high-quality shingles, attic ventilation, and ridge-cap shingles for additional protection," explained Ken. "Whether your roof experienced damage due to hail or wind or is simply dealing with old age, we can provide you with the best strategy to fix the problem based on your individual needs. We can repair simple problems or handle an entire replacement if necessary."
