The medical center offers a blend of modern technology, along with ancient techniques and wisdom to cure common ailments that typically require the use of medicinal drugs or painkillers to keep symptoms at bay. “Our mission is to provide high-quality, patient-centered, care focusing on natural therapies for pain relief, anti-aging, body contouring, and aesthetics. In addition to in-office procedures, postural therapy, nutritional and lifestyle prescriptions are given to empower patients to be their own best healer,” reads the mission statement on Source of Health's website. Naturopathic medical doctors combine the research and advancements of modern technology and science with the ancient techniques and wisdom of nature. It is the naturopathic physician's role to identify and remove obstacles to health so that the individual can maximize their innate potential for wellness. This high level of healthcare is tailored to meet your specific needs. Instead of a ‘pill for every ill,’ our patients get the time and attention they need to achieve radiant health.”

The treatment plans and therapies offered at [Source of Health](#) have been greatly appreciated by patients. "Dr. Steven Sorr stands out in a sea of mediocrity when it comes to physicians, considering both conventional and naturopathic doctors," writes Russ C., giving the center a 5-star review. "He

shines like a beacon for a lot of reasons, but the most important to me is because he cares. He cares about my health and spends time listening to me and asking probing questions to get to the root of what my issue is. I have a chronic lower back issue and the therapies and treatments he has used on me have made a tremendous positive difference in how I function from day to day. I looked into every doctor in Scottsdale and Phoenix and chose Dr. Sorr based on that research. I'm very glad I did. He uses regenerative medicine that helps the body heal naturally. I don't believe in synthetic drugs, and this aligns with Dr. Sorr's philosophy. If you are suffering and have any kind of pain, do yourself a favor and make an appointment to see Dr. Sorr, you won't regret it!"
