

# White Lanterns by Frux Home and Yard Used as Dorm Decor for 2019

February 06, 2019

Frux Home and Yard is helping students prepare for college away from home by providing high-quality lanterns for dorm and small room decorating. The lanterns are a popular choice amongst students as they are the perfect size for college dorm rooms and offer a remote control that allows the user to turn the lights on and off, adjust the mode, and set a timer without having to reach the lights.

“Our lights are great because they can make even the smallest of rooms look cozy and feel comforting. We understand that school can be a stressful time for some people, and having a nice cozy area where you can relax is very important for your mental health. Our lights are subtle, easy to put together and put up, and they have a warm light that helps for winding down.”

Customers who purchased these white lanterns have left glowing testimonials about the product. One of [Frux Home and Yards customers](#) wrote an Amazon.com review about how she used her string lights for decorating. “I love these lights! I used them to decorate my dorm room, and they look great. They were very easy to assemble, so that was definitely not a problem. The material of the lanterns is sturdy, and the light is a really nice color. I would purchase a similar product in the future!”

The [mini nylon string lights](#) come easy to assemble, with an instructional paper outlining how to put them together. In just a few minutes the lights can be constructed and ready for decorating use. The string lantern lights feature 24 long-lasting LEDs and white lanterns made from durable nylon. The lights are also weather resistant and are perfect for outside and inside use as they feature a protective polyurethane coating to protect them.

For small areas, the 16ft lights are a perfect size, but If users are finding the lights are not long enough, they can extend them at both ends allowing for more reach. Although they are popular for dorm rooms, customers have reported using the lights for decorating around pools, hot tubs, railings, driveways, and more.

To purchase the [string lights LED](#) in white, readers can visit Amazon.com where they are available now for \$21.97 and in two color options. Free two-day shipping is also available to Prime members and free shipping for non-members on purchases over \$50.00.
