

Microblading School Awarded Highest Honor

February 07, 2019

3D Brows Academy in Draper, Utah has been awarded the highest honor from the ASCP, Associated Skin Care Professionals. The [microblading school](#) has been named as one of the best Microblading Training Schools in the nation. Patty Willardsen, founder of the school says, "It is such an honor to be recognized as one of the best of the best in our industry. Our goal has always been to prepare our students for outstanding futures, and we are honored to accept this award from the ASCP."

Willardsen states that the mission of the school is to help students to become confident artists in permanent makeup. She states that it takes a keen eye and precision, along with the right training, mentors and motivation to become one of the best in microblading. Willardsen says that it takes practice and a good support system for students to hone their crafts and that the school offers this support and motivation for all of their students.

"We are here to help and guide our students to obtain their [microblading certification](#)," says Willardsen. We are held to a higher standard in education, being a postsecondary school, and all of our staff, mentors and instructors take this standard very seriously. We have students from all over the world who come to us because they want the best in certification and training."

Willardsen founded 3D Brows Academy, developing her own training program for students. Students learn at the academy through a combination of art and clinical fundamentals, in order to ensure that each has an opportunity to complete training with confidence. Willardsen herself is an esthetician as well as a certified esthetician instructor and has been awarded many certifications as a permanent makeup artist, skin care professional and as an instructor.

The honoring agency, the Association Skin Care Professionals, is the largest association in the United States for skin care professionals. The organization empowers professionals to reach their potential and provides education, insurance and business solutions for those in the industry. The ASCP currently has more than 16,000 members that consist of skin care students and educators as well as estheticians throughout the United States. It is the only organization that provides skin care professionals with benefits specific to the skin care industry. the Association Skin Care Professionals was founded in 2007 and continues to play a huge part in the skin care industry, honoring schools and training centers each year for the outstanding work that they do in helping to train and educate new professionals.

Willardsen states that those who are interested in learning more about the [permanent makeup school](#) can visit them online. The school's website offers in-depth information about their courses, certification and history.

The academy states that they invest themselves in their students and travel all over the world in order to continue to teach students the most advanced methods in the industry. Willardsen states that travel is essential in helping students to gain the tools and knowledge that they need to be the best in their fields. 3D Brows Academy is located near Salt Lake City, Utah, in the central most part of North America. Willardsen states that the school has an optimal layout of class and procedure rooms in

order to provide their students with the very best in microblading education.

Those who are interested in learning more about the school, their honor or their certifications can visit them online. Willardsen states that students who are interested in furthering their careers in the skin care industry are welcome to visit the site to learn more about the programs that they offer. A course schedule and direct email link is provided for those who wish to attend the school. An online chat feature is also offered for those who may have questions prior to enrolling. Willardsen states that those who have additional questions are welcome to contact the school during their normal operating hours by phone or email.
