

The Texas Mortgage Pros Announces New Dallas Location

February 07, 2019

[The Texas Mortgage Pros](#) has announced a new location in Dallas, Texas. The company also recently announced a new merger with Prodigy, a mortgage financial institution.

Jason Turner, a representative for the company says, "We are pleased to announce the opening of our newest location in Dallas. Our team is here to help area residents to realize their dreams of owning their own home. We bring years of experience to the table and a true passion for assisting our clients throughout the entire mortgage process."

Turner states that the company currently services those in Dallas, as well as other areas including San Antonio, Spring, Corpus Christi, Abilene and various surrounding locations. He states that each team member on staff has their own experience in the mortgage process and is dedicated to providing personalized service to each client. The company states that the process can be confusing and even frustrating for some clients. Turner states that they use their experience with various programs to help those who dream of owning their own home to find the right product for their individual needs.

"Some clients come to us with no clue as to how they should begin the process," Turner states. "We have helped many to overcome various obstacles that would keep them from owning their own home and put them into the home of their dreams. Our goal is and will always be to assist our clients and help them to become homeowners at the end of the process."

Turner says that the new location allows the [mortgage lender Dallas](#) to help many more clients than they would have been able to prior to their new office opening. He states that those in Dallas who are looking to own a home will not have to travel hours to reach assistance for the process.

The company states that their team uses their years of knowledge to work with clients to ensure that they receive a solution that meets their specific needs. Each client is assessed to determine their own unique circumstances and desires and a solution is provided that is the perfect choice for that client. Turner states that there is no one fit solution for home buying needs and that all clients are different. He states that the company's new service location in Dallas will address the specific needs of clients in that area and provide solutions based on each client's individual situation.

Home purchases have grown statistically over the past few years in the Dallas area. Turner states that this is due in part to the wide range of options, including a number of government based programs that clients qualify for but perhaps did not know about prior to speaking with a professional. He states that those who live in the Dallas area or who are looking to relocate to Dallas can contact the company and learn about these and other programs that may help them to realize their dreams of owning a home.

Turner states that their new location in Dallas will serve clients with a wide range of financial tools and resources. He says that whether clients are looking to buy their first home, consolidate their bills,

refinance or are looking at investment properties, the company can assist them in finding the right solutions for all of their [mortgage loans Dallas](#).

The company states that their goal is to develop trusting and lasting relationships with all of their clients. Unlike larger companies that provide these same services, Turner states that their company works with clients individually, helping to find the financial solution that is best for each individual need. He states that those who are interested in learning more about the new location or their merger with their new financial partner can visit them online or contact them directly by phone or email to schedule a personalized consultation. The company did not state whether they plan to further expand their reach with new locations, but did say that they look forward to helping their new clients in the Dallas area.
