

Potty Training In 3 Days: Carol Cline's Tips For Parents

July 16, 2015

July 16, 2015 -

Carol Cline is a bestselling author of many parenting products. She is best known for her book "Start Potty Training" that teaches parents how to potty train their kids in just 3 days. NewsFive reviews the latest edition of "3-Day Potty Training Guide" in this press release.

Potty training can be both challenging and stressful for kids and parents. Although there are many potty training techniques out there, very few of them have been proven to be effective for most parents. Carol Cline's "Start Potty Training" book has been used by thousands of parents worldwide. According to Carol, the program is very helpful for mothers of 1-2-year-old children. Here is what Carol says about her book: "Myself being a mother, I have gone through the frustration and helplessness of training my kid's potty training. That's why I wrote this book for the millions of newborn baby mothers worldwide to make the entire potty training process much less frustrating and much more enjoyable for both you and your child." Carol Cline shares easy potty training tips and teaches parents how to tell whether their child is ready for potty training here.

"The 3-Day Method outlined in this book has worked for my children and many others, in making that all-important breakthrough from diapers to real underwear. It has also helped many parents look closer and get to know their children in a way that our daily to-and-fro workload prevents us from doing. Using this or other quick-training methods doesn't mean that your child will be perfectly potty trained in three days. Instead, in three days your child will be using the potty rather than diapers," added Carol.

There have been many positive reviews from parents who were able to potty train their children using Carol Cline's 3 Day Potty Training Method. Here is what Laurah Hamburg from Jackson Hole, Illinois says about "Start Potty Training" guide: "Followed your method to a T and now I'm happy to say my son is diaper free both day AND night for over a week now. This site was a blessing to our family!" More testimonials are available here.

"Start Potty Training" guide comes in a form of an eBook (PDF) and consists of an easy to follow, step-by-step program that focuses on teaching parents how to potty train their children in just 3 days. Noreen

Yule from Sugar Land, Nebraska has recently used "Start Potty Training" guide and here is what she thinks about it: "My child is 16 months old and JUST completed your method. To be honest it took 8 days instead of 3 but keep in mind that my child was completely UNREADY to be potty trained before starting your method. I could honestly kiss you right now."

Most parents who used 3 Day Potty Training Method said that not only they don't have to spend tons of money on diapers anymore, but that potty training also encouraged their child's independence. More information about "Start Potty Training" 3-day guide for boys and girls available here.
