

US Coachways Offers Bus Rental In San Antonio

September 27, 2019

Staten Island, NY based US Coachways is pleased to inform residents and businesses in San Antonio that the company's wide array of [San Antonio bus rental](#) options is now available in their city. US Coachways operates nationwide and their drivers have a wealth of experience navigating dense city streets, rural roads, and everything in between.

As US Coachways owner Ed Telmany states, "US Coachways is a nationwide leading bus charter logistics company providing quality transportation and personal service for point-to-point excursions, long-distance, overnight trips, special events, and more. No matter where you are traveling in the United States, our bus charter rentals offer safe, reliable transportation at affordable rates for large and small groups alike."

While the company specializes in providing transport to groups of all kinds and sizes, they are especially keen to inform San Antonio's business community of the advantages they stand to gain relying on US Coachways' dedicated and professional services. Telmany elaborates that, "Many hold the belief that if you're not getting somewhere as fast as possible, such as through a flight, you're not making the full use of your time. However, any business with experience in time management will know that this is not always the case. Aside from such means of travel being notoriously unreliable, with delays and other setbacks, they often do not allow the company to continue acting like a company en route—and this can be a detriment to their purpose of their trip. It can also be prohibitively expensive."

For instance, if a business often needs to make [corporate trips](#) to or from San Antonio, taking a flight (or, more likely, multiple flights to accommodate all employees) would give their employees no option to discuss the objective of their trip or otherwise conduct meetings. Telmany adds, "If you're traveling to attend a convention in another city, you'll probably need to update your plans as you travel since schedules and plans can be subject to change on short notice. With US Coachways, this is not a problem at all; our drivers will not prevent you from exercising full use of your team during your trip, and no other passenger will ask you to keep quiet so they can catch some sleep. Since you charter the bus for yourselves, your privacy and comfort is guaranteed."

US Coachways offers a wide range of corporate rentals, ranging from limo buses and mini-buses to 56-passenger charter buses. Each vehicle has regular maintenance performed on it to ensure that it runs as smoothly as possible and will not suffer mechanical failures midtrip (in order to minimize the risk of delays), and they are manned by highly trained and conscientious drivers who all possess a stellar safety record on the road.

Furthermore, Telmany asserts that clients have the benefit of US Coachways' personalized attention. As stated on their website, "Our knowledgeable account specialists help you plan, book, and execute your bus or vehicle rental. Our professional staff, including skilled on-call dispatchers and drivers, are there for you from the first step to the last mile of your trip, ensuring a great bus charter experience for

everyone.”

The advantages only grow for businesses who regularly work with US Coachways. Telmany explains, “If you’re in the habit of using us to take your employees across the country, we can build a model of your traveling preferences and requirements, making it much more convenient for you to plan your trip because we can handle every moment from the first mile to the last.” In addition to this, the company’s preferred corporate business plan gives clients an extensive range of perks, such as discounts and special services, including hourly rates, credit card convenience, cellular phone access, refreshments and snacks, short-notice bookings, and punctual service. “Should it be necessary,” Telmany says, “you can even have a bus wrap added, a useful option for political tours, entertainers, and corporate branding during executive roadshows.”

Those who would like to inquire further about US Coachways or charter their buses may get in touch with Ed Telmany. A more detailed breakdown of their services can be found on their website at <https://www.uscoachways.com/>, and the company is always willing to engage with clients who visit their social media platforms.
