

# Roof.net Receives The Best Of The Best 2019 Award For Customer Satisfaction

October 02, 2019

Fairfax, Virginia based Roof.net is proud to announce that they have received the Best of the Best 2019 Award for customer satisfaction yet again, an honor they have received for four consecutive years since 2016. They also take pride in being one of the most customer-oriented companies in the country, with more than 730 recent 5-star ratings across six verified review sites, including Yelp, Top Rated Local, and Google, among others.

One satisfied homeowner, Dana Rivera, says in her Google review, “After much research and several bids, it was clear that Ken from Roof.net was the go-to guy for roofing in Northern VA. Ken responded quickly to my inquiry and provided me with an estimate in less than 24 hours. Although his offer was not the lowest price, his base quote had top of the line products and services included, unlike his competitors. Ken and his crew completed the job in one day and left my property immaculate. From the responsiveness, customer service, up to the quality workmanship, it is clear why Ken and his crew have 5 star and A+ ratings across the board.”

As noted on their website at <https://roof.net>, they are a fully-licensed and insured roofing company that offers professional roof repair and roof replacement services in the greater Virginia area, including Fairfax, Loudoun, and Prince William Counties. They primarily specialize in residential

roofing works but their team of roofing experts can also meet the roofing needs of light-commercial structures, such as local business establishments, schools, and condominiums. In addition, they also offer professional water leak repair for roofs, chimneys, vents, skylights, windows, and more.

Ken Briesemeister, Owner and Operations Manager of Roof.net, asserts that they have 45 years of experience in providing professional and reliable roof repair and replacement services. "We only utilize premium materials that are installed by our highly skilled and professionally trained roof specialists. Whether you are dealing with storm damage or normal wear and tear, we have the roofing solution that will suit your needs and budgetary requirements," he says. Briesemeister also points out that they provide emergency and same day repairs to help homeowners immediately settle all of their roofing problems. Furthermore, he says that Roof.net ensures that each project is completed according to their very strict workmanship and safety standards.

Furthermore, Briesemeister reminds the general public to be careful in hiring a roofing contractor since a roof repair or replacement is a significant financial investment. "Choosing a reliable contractor with years of experience in the field is a decision that should not be taken lightly. After all, your roof protects your family, so working with the best-rated roofing company like Roof.net will make your investment worthwhile," he says.

Roof.net is one of the most trusted roofing contractors in the Northern Virginia area, based on a number of highly positive reviews they have received online. Additionally, they are duly registered and accredited by both the Better Business Bureau (BBB) and Virginia's Department of Professional and Occupational Regulation (DPOR). Interested parties may also visit Roof.net's official YouTube page at <https://youtu.be/2IPABXWYtxQ> to learn more about the company's industry experience, client reviews, recognitions, and awards.

One of their clients, John Zwerneman, says in their 5-star Google review, "Ken from Roof.net is a professional who takes customer service as seriously as it can be taken. After more than four years in the building materials industry myself, I was familiar with what to expect in a quote and the materials. Many quotes were not in the right ballpark but Ken was down to earth, friendly, competitively priced, and produced quality workmanship. He and his team got the job done right while answering all my questions before and after the job. You can count on Ken for taking care of you and your roof. He holds himself to a high standard and I greatly appreciate his assistance in my roof's replacement."

Complete details can be found on the company's website. Alternatively, homeowners may send an email inquiry or call the company's service hotline to inquire about their services and request free estimates. Furthermore, interested parties may connect with Roof.net through their official Facebook page at <https://www.facebook.com/roofrepairva> to stay up to date with their latest news and important announcements.
