

ManageByStats To Be Part Of New Training Release

October 08, 2019

ManageByStats CEO, Philip Jepsen, reports MBS will be part of the latest edition of the popular Amazing Selling Machine, releasing over the next few weeks. The [Amazing Selling Machine](#), or ASM, is the premier training system for Amazon sellers, teaching them to build their own brand and leverage the incredible power of Amazon. ManageByStats is a suite of software tools for Amazon sellers, designed to help them run and expand an Amazon business. MBS will be included as part of the upcoming ASM release.

“This is the eleventh edition of ASM,” says Mister Jepsen. “This partnership is a perfect marriage; ASM teaches people how to sell on Amazon, and ManageByStats helps them more effectively manage the business they create.”

The Amazing Selling Machine is in its eleventh version. Doors open for the [pre-launch](#) October 8th, and a series of free training videos will introduce key Amazon tenets, walking viewers through every step of building an Amazon business. Four in-depth videos cover every phase of launching and building an Amazon enterprise. Valuable downloads and templates will be included as part of the pre-launch, as well as the latest product launching strategy using a new marketing tool exclusive to the Amazing Selling Machine.

“Amazing is planning to show users an incredible new tool which will help them get started,” says Mister Jepsen. “And will, in fact, help them at any stage of their business, whether just getting started or expanding to the next level.”

For more info on [ManageByStats](#), please visit the site or contact the company directly. If interested parties have further questions, ManageByStats may be contacted directly by email.
