

Frux Home And Yard Launches New Silicone Oven Mitts

November 07, 2019

Las Vegas, Nevada based home goods manufacturer Frux Home and Yard is pleased to announce that they have launched a new series of silicone [oven mitts in grey](#), red and black. The company creates a variety of indoor and outdoor lighting products, kitchen accessories, oven mitts and other products.

The new SiliMits line of silicone oven mitts are rated up to 500° Fahrenheit. They have silicone covering the entire hand and an extra long sleeve created with durable fabric to protect the user's hands and forearms. The new line of oven mitts also cost less than Frux Home and Yard's previous series of oven mitts at an incredibly affordable \$13.97. Along with all of Frux Home and Yard's other products, the new mitts can be purchased on Amazon. As part of the company's new Green initiative, they are shipped in a poly bag (unlike the previous Frux Home and Yard products). The company is proud to say that the poly bag is 100% compostable, biodegradable and recyclable, and is made primarily of starch.

Mike MacDonald, a representative for Frux Home and Yard, says, "With our new line of oven mitts, you can say goodbye to burns. They are incredibly heat resistant and carefully designed to ensure that your family can stay safe while using the grill or oven racks. In fact, we've put in so much thought into the design and manufacturing of this product that we are sure that these are the only pair of oven mitts you will ever need."

MacDonald says Frux Home and Yard's new silicone oven mitts are also super comfortable and flexible, and they feature a lifted pattern for a textured and non-slip grip that is better than using pot holders. They are made from 100% BPA free FDA-approved waterproof silicone on the palm, with a soft and comfortable inner liner of 50% cotton and 50% polyester. In addition, the company assures that the mitts can be easily cleaned with cleaned with warm water and soap. The inner quilted liner can be pulled out for cleaning purposes, but is sewn at the seams so it cannot be lost. Customers are invited to look up more information about the [red silicone oven mitts](#) online.

Frux Home and Yard's other products include a bamboo cheese board and knife set, a manual coffee grinder and a variety of flameless candles. MacDonald says, "We are always hard at work enthusiastically creating a new line of products for your homes and yards that will satisfy a wide range of décor needs. We're proud to be able to say that we have been part of many special events in our customers' lives, from weddings to banquets, garden parties and more."

"Your satisfaction is our number one consideration when we design new items," says MacDonald. "As a family owned business, we know the importance of customer service and we put you first in everything we do. At the end of the day we judge ourselves not by the money we've made, but by the relationships we've built, so paying attention to your feedback is critical to accomplish that. We want our customers to have a voice in the products we create because we create them for you. Knowing

what you think of our products allows us to follow through on our mission of producing quality products and being able to stand firmly behind them. If you have any concerns or questions, you are welcome to check out our FAQ page. If your query is not answered there, please get in touch with us through our customer support channels and we would be more than happy to assist you.”

Those who want to learn more about Frux Home and Yard and the variety of products and services they offer may visit their website for more information. Interested parties may also get in touch with Mike MacDonald for further details. In addition to their website, Frux Home and Yard maintains a presence on Facebook, where they frequently post updates about new products, share information on new offers and communicate with their customers.
