

Accessible Systems Opens Office In Colorado Springs

September 25, 2015

[Accessible Systems](#), headquartered in Englewood, CO, has recently opened a new office in Colorado Springs to better service clients in the Colorado Springs, Manitou Springs, Pueblo, Monument, Cripple Creek, Walsenburg, Woodland Park, Black Forest, La Junta, Lamar and Fountain, CO areas.

"We have been active in the Colorado Springs area for over a decade now and have well over 1,000 customers. We wanted to open this new office in order to be closer to our clients, assisting them in modifying their homes for long term use. Now that we have opened our doors and are staffed with three full-time employees, we can offer full service home modifications, accessible remodeling, stair lifts, wheelchair lifts, wheelchair ramps and ceiling lifts," says Nathan Colburn from Accessible Systems.

Accessible Systems wants to play a pivotal role in making sure people can keep their independence by remaining in the comfort of their own homes for as long as possible. The company offers a free evaluation for potential clients, enabling them to see what changes could be made to their properties to make them more safe and comfortable. The plans that Accessible Systems provides are designed to be simple and easy to understand, while demonstrating how a home can once again become a haven.

"As adults age, or after there has been an accident, people often feel as though their living quarters are a sort of prison," says Nathan Colburn. "However, by installing various mobility and accessibility systems, people can once again feel happy and comfortable in their own homes."

Accessible Systems provides accessibility equipment and installations to create customized environments for homes and businesses. The company offers the following product lines: stair lift, ceiling lift, wheelchair lift, handicap bathroom, residential elevator, specialized medical equipment, and remodeling services that include barrier free bathrooms, grab bars, door widening, ramps and other installations. Accessible Systems is licensed, insured and ICBO certified, as well as a SureHands© distributor, Medicaid HCBS, Worker's Compensation and Vocational Rehab provider.

In addition to Accessible Systems-Colorado Springs, there are also other offices located in the Denver area, Northern Colorado & Wyoming and Utah. For additional location information, visit <http://www.accessiblemed.com/locations-map/>.
