

Clean Group Commercial Cleaning Reveals Green Cleaning Solutions

November 25, 2019

Sydney, Australia - The Clean Group, Australia's most trusted office and [commercial cleaning](#) company, recently revealed its multi-faceted program of green solutions to provide businesses in Sydney, Melbourne, and Brisbane with a safe and eco-friendly cleaning alternative. This initiative was taken as part of the company's commitment to help business owners reduce their impact on the environment.

For more than 20 years, the Clean Group has been offering a wide range of services to small, medium, and large businesses throughout Australia. By investing in the latest technology and the most advanced equipment, they have become a leader in their industry and are trusted by some of the country's most well-known brands. They take pride in delivering professional and affordable services to businesses who wish to maintain both a pleasant and sanitized environment for their staff and clients.

“We’ve been trusted by thousands of businesses across Australia and cater to over a hundred suburbs in NSW, VIC and QLD,” said Suji Siv, a representative of the company. “We provide a staff of highly-trained, friendly, reliable, and trustworthy professionals to keep your establishment clean.”

The Clean Group is also chosen as the [commercial cleaners](#) of choice because of its in-depth eco-friendly initiatives. These green solutions include requiring all their cleaners to use products that are non-toxic and bio-degradable. They also prefer to use products that are produced organically and by sustainable farming methods.

According to Siv, “Our company makes it a point to reduce our use of water while on the job as well as to avoid the use of chemicals containing phosphates and other dangerous elements. By employing microfibre technology, we also reduce the need for using strong chemicals.”

By utilizing microfiber cloths, the Clean Group reduces the use of water and chemicals as these synthetic cloths are highly effective in removing dirt and dust in surfaces and can trap even the smallest particles. By being super absorbent as well, they highly reduce the use of water and chemicals.

All of the Clean Group’s eco-friendly practices are adaptable to any kind of business premises including retail stores, schools, childcare, medical centres, fitness facilities and [office cleaning](#). This

includes the use of the i-mop floor scrubber, which applies powerful twin counter-rotating scrubbers to remove dirt and stains from floors while reducing water and chemical usage by 40%.

In addition to interior commercial cleaning services, the Clean Group specializes in maintaining and cleaning strata. Providing customized solutions to their clients, the Clean Group offers the flexibility to ensure every strata property is left looking as good as new. Certified professionals use the latest and safest equipment as well as premium cleaning products. The company also conducts regular inspections and consistently evaluates the feedback they receive to further better the services they provide. "We extend our services to most types of strata property found in general," stated Siv. "With the right blend of experience, expertise, and commitment we are, to put it simply, the best candidate for strata maintenance you're likely to come across."

In addition to commercial and office spaces, the Clean Group provides services to medical centres, schools, childcare facilities, and fitness centres. Licensed and insured technicians work within these premises to sanitise, polish, sterilise, and disinfect these sensitive and germ-laden areas. These areas include reception/waiting areas, furniture, blinds, cabinetry, doctors' chambers, play areas, nappy changing stations, electronic devices, air vents, gym equipment, toilets, and more.

The Clean Group also offers a complete range of cleaning services to churches and warehouses. In addition to cleaning the church's sanctuary, the company has the proper equipment to clean ornamental ceilings, statues, chandeliers, stain-glass windows, paintings, and tile, wood, or carpeted floors.

For warehouse cleaning, the Clean Group is able to meet the general code of conduct set by the government that must be abided by all warehouse owners. The company employs technicians who are well-trained in the use of cleaning and scrubbing machines within these premises and who can use the correct methods and equipment without causing damage.
