

US Coachways Providing Miami Bus Rental Services

December 17, 2019

[US Coachways](#), a Staten Island, New York based transport service, is providing bus rental services to and from Miami. Interested parties can rent a charter bus from the company for their trip, and according to the company, charter buses are ideal for larger groups of people looking to travel together.

Mark Telmany, CEO of US Coachways, says, “If you're looking for pure fun, there's no better destination than Miami. Whether you want to relax along the beautiful Miami Beach, enjoy the tastes and sounds of little Havana, dancing the meringue at one of the many clubs, or playing some of the world's finest golf courses, it's always fun in the sun in Miami. It's the 6th largest metropolitan area in the United States and has more than 5.5 million residents. As lovely as the city is, you don't want to try to navigate its busy streets on your own. However, if you want to revel in everything that Miami has to offer, there's a better way—in the luxury, comfort and convenience of a charter bus from US Coachways.”

According to the company, there are many reasons to opt for their [Miami Bus Rental](#) services, with safety and security being the foremost of them. With a trained and professional driver at the wheel and controlled access to the bus, there is nothing to worry about. The buses also have more legroom than any other mode of transportation, and the seats are plush and wide. Telmany says, “With the safety of you and your personal belongings taken care of, you can travel in a true stress-free, relaxed style. There is no need to worry about the specifics of the trip, which route to take, or even lost luggage. We'll take care of everything for you. In fact, the whole trip will be tailored to suit your needs. You simply have to figure out what you want to do and tell us.”

US Coachways also points out that charter buses can often take advantage of the HOV (high occupancy vehicle) lanes, which can be a real bonus in a city like Miami. Further, studies have also consistently shown charter buses are one of the most cost-effective ways to travel with a group, meaning that using a charter bus gives more travel for less money. Finally, the company says that using charter buses can also help the environment, due to the fact that a single charter bus can take more than a dozen cars off the road.

US Coachways provides a service that is appreciated by many, as evident by the number of positive reviews the company has. On their Google page, US Coachways has a rating of 4.1 out of 5. A recent five star review by Platinum Getaways Travel Agency reads, “US Coachways was absolutely amazing. At the last minute I had to change bus companies and US Coachways was able to find me a large enough bus and was cheaper than the first company I was planning to use. Whilst at times I'm sure I worked Lenny's nerves, he stayed extremely professional and answered every last one of my questions. The driver we had was beyond amazing, he got us to our destination and back safely. Thank you US Coachways, you definitely have my business going forward.”

In another five star review, Diana R. Auer says, “We had a great experience with US Coachways. We

rented a 55 person coach for a church trip down to 6 Flags in New Jersey. The booking process was simple. Our coordinator, Paul, was very helpful in the weeks leading up to our trip. Our driver, Tao, arrived early, and was a fantastic driver! We arrived at our destination on time, and arrived back home timely and safely. I would highly recommend US Coachways.”

Those who want to learn more about US Coachways and the various services that they provide can find more information on the company’s website. The website also has a [cost calculator](#) which can be used to find a bus charter rental to fit within anyone’s budget. Additionally, the company also encourages interested parties to get in touch with Mark Telmany directly via email, phone, or the form on their website. In addition to their official website, US Coachways also maintains a page on Facebook where they frequently post updates.
