

# Dentist Takes Over As New Owner At Clinic In St. Clair, MO

January 13, 2020

The St. Clair Family Dentistry, based in St Clair, Missouri, is delighted to announce that Dr. Phillip Buckley has become the clinic's new owner. The highly rated clinic will carry on their mission to deliver high quality service to patients of all ages in the communities of Franklin County and beyond. Visit the following link for further details: <https://stclairfamilydentistry.com/>.

"I'm very excited to be in St. Clair, and grateful for the opportunity to continue Dr. Bunge's legacy in caring for his patients," said Dr. Buckley. "Our top priority is to ensure every single one of our patients, young and elderly alike, get the exceptional, individualized care they need. I've come to love the warm and friendly nature of the community, and I hope to help as many people here get and keep their confident, healthy smiles."

The clinic offers a full range of services, with a unique focus on helping take the fear out of going to the dentist, a noteworthy priority given that nearly 75% of American adults have some fear going to the dentist. This fear is known to lead some patients to put off going to an appointment which might correct a small problem early. Unfortunately, some are now passing on that same fear to their children. To address this, the clinic uses the most modern equipment and methods available to make their visits as painless as possible.

Dr. Buckley continued, "While in the Army, I received additional advanced training in implant dentistry, which means I have the experience my patients rely upon to decide when to opt for implants and dentures. I was also given advanced training in the treatment of snoring and sleep apnea, which are more common than most people realize. Our patients being able to trust us to help with any sleep issues means they can enjoy a better quality of sleep, and this in turn helps them restore their energy levels. Those who have received effective treatment can tell you the difference it makes in their lives."

The clinic invites everyone to follow them on their new Facebook page at <https://www.facebook.com/stclairfamilydentistry/> to stay abreast of their latest posts, news and announcements. One of Dr. Buckley's former colleagues, Brandon Mendez, has left his recommendation there as well, saying, "I had the pleasure of working with Dr. Buckley while he was completing his advanced training at Ft. Campbell. He is an impressive clinician who places patients' best interests first. You will be in good hands at St. Clair Family Dentistry."

Online reviews from their patients are already being posted on a variety of leading review sites. For instance, on Google, Mindy Bradshaw gave them 5 Stars in her review, saying, "We are new to St. Clair and had to find a new dentist after being with our old one for 10+ years. They were very friendly, great with my kids and did a great job. Dr. Buckley is very knowledgeable. I'm glad I decided to try St. Clair family dentistry. We found our new dentist for sure!"

Patients who have been going to the clinic for years have also left their feedback. One patient, Chrystal Payne, said, "Amazing staff and Dr. Buckley. Friendly and efficient. I have been going to Dr.

Bunge since I was five years old; now I am 38 years old. Dr. Bunge is a very good man and a very honest man. All his long term patients know that Dr. Bunge would never have a new dentist take over for him for his lovely retirement if he didn't think Dr. Buckley was not as good as a man as him. However, Dr. Buckley performed a dental implant procedure today, and he did an amazing job. Thank you all so much."

Dr. Buckley responded, "We would like to thank everyone who has taken the time to leave a review online. It makes us proud to be trusted to carry on this legacy and provide a great place for everyone to get the dental care they need. Now is the best time to give us a call so your smile can be perfect for all those spring and summer events you want to attend. We know that the cost of dental treatment can be a challenge for families too. This is why we offer a wide variety of payment options and accept most PPO insurance. We will do our best to see that you and your family receive your maximum insurance benefits for all services covered."

Those who would like to book an appointment may call the clinic directly from their website and take advantage of their convenient hours (which make it easier for families with busy work and school schedules to get the dental care they need). Interested parties are also invited to follow St. Clair Family Dentistry on Facebook to stay abreast of their latest posts, news, and announcements.
