

Leading Fort Lauderdale Accountant Launches New Website

January 13, 2020

RMS Accounting, based in Fort Lauderdale, Florida, is delighted to announce that they have launched a new website at <http://www.rmsaccounting.com/>. The site brings a fresh, new look to the firm's online presence and makes it easier to find the helpful information they provide. It is also optimized to work across any platform, including desktop computers and laptops, tablets, and smartphones to ensure clients and other interested parties can find what they need, even on the go.

Steven J. Weil, President of RMS Accounting, says, "We have been helping individuals and businesses build and maintain their financial integrity for over 30 years. We thought it was time to update our website so that more people can benefit this tax season by using our 2019 year end tax resources in the easiest way possible, particularly on mobile devices. We think everyone who comes to the site will love the improvements. We want to help the members of our community keep as much control of their finances as possible."

The new site makes it very easy for any online visitor to find their 2019 Year End Planning Check list as well as a variety of other resources the firm provides through their website. They are a leading Fort Lauderdale accounting firm, providing cost effective accounting and bookkeeping services through a team of experienced tax accounting professionals. They provide their services to businesses, individuals and families, helping them pay the lowest taxes possible. Learn more here: [Accountant Fort Lauderdale](#).

The firm can prepare personal, corporate and trust tax returns, providing planning and IRS audit assistance. Their professionals work with each of their clients to ensure that their tax return is completely accurate. Anyone looking for assistance is advised to contact them as soon as possible to meet the upcoming deadline.

Weil continues, "The refreshed site makes it easy for anyone who wants to contact us to do so with complete confidence that we have the experience they need to save money on taxes. We also provide other services that are designed to help businesses flourish. We can open the door to helping them find a new way of doing business so that they survive through those crucial first five years."

A recent Google review of the firm serves to highlight how much their clients appreciate their assistance. Lauren S. recently left an [RMS Accounting review](#), giving them 5-Stars, in which she says, "My husband and I have been searching for an accountant that would exceed all expectations. We even posted a recommendation on our extensive network of social media contacts in hopes that we could find that 'needle in the haystack.' Well, we did! Steven Weil and RMS Accounting. He was unbelievable. He sat with us and discussed all of our finances and previous year's spending while preparing our tax return right in front of our eyes. We didn't have to fill out forms and have our taxes prepared before we met him."

The review goes on to elaborate that, "He explained the tax rules to us so that we could better

understand how to maximize our tax obligation within the law. He also took our calls subsequent to our meeting and was available to answer any questions without nickeling and diming us as other accountants do. He charged us one fee and has been generous with his time, even with questions we have had since our tax return was filed. It's a family run business, and everyone that works in that office is great. They are knowledgeable not just with taxes but with financial planning and legal assistance. It's a one stop shop, and they are definitely beyond what we would ever have expected."

Weil states, "Getting feedback from clients like Lauren S. makes the whole team work harder to help every client who seeks our help. If you want to rest assured that you are keeping as much of your money as possible, give us a call. I also recommend staying in touch with us to receive our weekly newsletter to stay ahead of tax scams, and information about legislation like the Secure Act that may affect your financial planning."

Those who want to take advantage of RMS Accounting's free consultation policy may call their customer service team, send an email, or get in touch with them through the contact form on their website. Their 2019 Year End Planning Check List can be accessed through their Information page. They also invite social media users to connect with them on Facebook and Twitter.
