

# New MeetPositives Affiliate Program Lets Marketers Earn An Attractive Commission

May 13, 2020

[MeetPositives.com](https://www.meetpositives.com), a dating website for STD positive people, is pleased to announce the launch of their new affiliate program. This program allows their affiliates to gain large, timely payouts.

MeetPositives (MP) offers a second chance at love and dating for people living with STDs, such as Herpes, HIV, Syphilis and Trichomoniasis. The exclusivity of their website (for STD positive individuals) gives these individuals the assurance that they will get to have a more pleasant dating experience by avoiding the embarrassment of having “the talk” in addition to eliminating the possibility of rejection caused by telling a potential partner about their condition.

Jack Lombardi, a representative of the company, says, “We understand that some individuals living with STDs may find dating difficult. Due to this reason, we have decided to build a site dedicated to these positive singles so that they may be able to date and find the right person for them with ease. The algorithm of our website makes dating easier by matching positive singles who are living with the same condition(s), by distance and by their personal saved criteria.”

MeetPositives assures people living with STDs that they are not alone. As noted on MP’s website, sexually transmitted infections are some of the most hidden epidemics in the US. In fact, according to the CDC, there are 20 million new viral infections every year. Some of the most common STI/STDs in the US are Gonorrhea, Chlamydia, Hepatitis B, Genital Herpes, HIV, Syphilis, Trichomoniasis and Human Papillomavirus (HPV). Additionally, it is estimated that there are approximately 110 million people living with STDs in the United States.

On the other hand, MeetPositives highlights that people who have been affected by these conditions can still live a happy and healthy life. The company also asserts that MeetPositives exists to ensure that their members meet other interesting, positive singles. Together, they could understand each other’s situation as they are often more willing to build a strong relationship together.

Aside from being a dating website, MeetPositives can also help their members find new friends who have lived (or are living) through the same experiences as they have. Members of MeetPositives become a part of a bigger, loving community that can provide them with support, and care as well as

share useful advice on life, relationships and dating. Additionally, MeetPositives also has a mobile application that helps make people's experience with MeetPositives easier and even more user-friendly. The MeetPositive App is 100% compatible with all devices, allowing it to cater to the needs of more individuals.

Lombardi adds, "We are dedicated to being of service to the people. We want to be able to reach more individuals in order to help more positive singles to find new friends and partners—as well as a community that can provide support to them. To be able to spread the word about our site, we recently launched an affiliate program. Our new affiliate program will not only help singles with STDs get to know our site and have the chance to find a partner there, it will also help those who would sign up to be an affiliate to earn money through a passive source of income."

The new [Meet Positives Affiliate Program](#) allows affiliate marketers to earn commissions from the MeetPositives website. MeetPositives offers a 50% commission to their affiliates and guarantees that their affiliates will receive timely and high payouts. The company's affiliate program also has a long-term residual, which means they pay for recurring memberships as well. MeetPositives provides 24/7 support to their affiliates, maintaining oncall staff who are ready to answer inquiries and provide assistance with any issues.

Thomas Milford, an affiliate for the website, says, "I've worked with Jack for about 8 years. Anything the guy does works! Getting paid with minimal effort. So far, so good." Meanwhile, Cathy Maker, another affiliate of MeetPositives, says, "I love the earning potential of this affiliate program. Just set up and leave it be. Great work, MeetPositives."

Those interested in becoming an affiliate or becoming a member of MeetPostives may find more information on the company's website. Interested parties may also connect with MeetPositives.com via social media to stay up to date with their latest news and important announcements.
