Stretch Marks Lotion Formulated By Naturopathic Doctor Announces Bella Joi

September 30, 2015

September 30, 2015 - PRESSADVANTAGE -

Bella Joi, an online-based beauty products company, announced earlier that their stretch marks lotion was specially formulated by a naturopathic doctor. An extensive research was also done to perfect the mixture of ingredients that can benefit the user the most. The company has always stated their commitment to provide only the best products.

"We are truly proud to share with everyone that our stretch marks removal lotion that is popular among pregnant women was formulated by a naturopathic doctor. Long research was done to be able to come up with the best formula that can help remedy stretch mark problems," says Bella Joi spokesperson, Holly Richards. "In our company, we have always aimed for high quality products that will truly help the user. This is the reason why we come up with the special formula for the cream instead of just following on what other brands usually use."

The company has succeeded introducing the lotion with various natural ingredients based on the reviews that it has received so far. In a feedback by Tamara Coty-Stickevers, she wrote, "This is a great quality Bella Joi Stretch Mark Cream. It comes in a 4oz bottle that you can squeeze the product easily out of. It contains three

nourishing Butters (Cocoa, Shea and Mango) as well as Antioxidants and Oils to help naturally moisturize the skin. This is very creamy and absorbs so quickly. It feels very soothing. My teenage daughter has been using it for some stretch marks from growing quickly around her thighs. It has been working really good!?

As mentioned earlier, the special formula of this lotion was created by a naturopathic doctor. Each bottle contains a number of natural ingredients that aim to help nourish and moisturize the skin. It contains nourishing butters, oils and antioxidants. To be more specific, it has Jojoba oil, Rose Hip Seed oil, Olive oil, Mango butter, Shea butter, Cocoa butter and Aloe. It is easily absorbed and will not leave the skin greasy and oily because it also has Capric Triglyceride.

A good formula is important in any beauty product. Based on the feedbacks by customers, Bella Joi was able to get the nod of many customers. This product is still available online at amazon.com.
