

Laske Images Hires New Wedding Photographers In OKC

December 29, 2015

Laske Images, a photography business in Edmond, OK, is proud to announce that they have expanded their wedding photography team. This has enabled them to meet the surge in demand from brides getting married in the upcoming 2016 season.

"We have been offering wedding photography and wedding consulting for over forty years," says Scott Laske from [Laske Images](#). "In that time, we have built a solid reputation with our many clients of being the best in our field. We believe that 2016 marks a notable increase in Oklahoma City weddings, because we have seen a surge in requests for wedding photography. To accommodate that growth, we have expanded our photography team."

Laske Images has received numerous awards for their work. They were voted Best of Weddings by [The Knot](#) for 2016 and also received the People's Choice Awards for [Wedding Wire](#) this year. They have won the awards multiple years in a row, demonstrating just how respected this company is in the wedding industry.

As a result, they are committed to only working with the best possible photographers. Hiring new members of staff was a decision not to be taken lightly and they spent countless hours reviewing each of the potential photographers, looking at the portfolios, finding information about experiences people have had with them before, and simply spending time with them to make sure they have the right personality to fit in the team.

A number of new photographers have now been added to the team and Laske Images feels they are able to fit in with the style and feel of the business as a whole. They encourage everyone to visit their website to view the galleries of each team photographer.

Those who have worked with the photography business in the past have been full of praise. "My husband and myself loved working with Scott Laske and his team on our wedding," says Tera Painter. Their website, the major wedding vendor directories and facebook reviews each showcase bountiful reviews, making Laske Images a forerunner in the industry.

Mr. Laske has a few words of wisdom for Brides who are planning their weddings. "Book your venue and photographer as soon as possible. Both are dependent on availability and you risk losing out on the best ones if you wait too long." Full details about the photography business are available through their website on www.okcweddingphotographers.com.
